Hi Everyone,

This is the location for the joint clean up with the UHRC, Caltrans, CHP and Kwasi's group. May we get an SR & authorization pushed through for the public right of way and they do not need an authorization for the actual sewer. This is for Tuesday, January 29th

Please use this address and mark it urgent:
8510 Olive St

The last three photos attached are the main public area.

Much Appreciated,

Howard/Michael,

Per the attached pictures all the materials within the CB will have to be removed by your group since it belongs to homeless persons. On our part we are coordinating to get a safety bar put on the CB inlet as well as a locking mechanism on the maintenance hole to limit or eliminate access once the site is cleared.

Thank you

FYI, please ensure we will have a team from CSLA and from WCD out there for City support during the clean-up and repair of the infrastructure. Refer to forwarded email on the confirm email from Cal Trans and CHP. As you know, gathering the various agencies to the location has been challenging. Please confirm via email on the requested resources.

Regards,

Hi Officer Anderson,

Thank You so very much for your coordination at this location. Just so that we are all on the same page- On January 29th and 30th you will have CHP, a Hazmat crew and Cal Trans present for a clean up of the storm drain located at 8510 Olive Street. Our OSB HOPE Team has gone by this location daily and not observed individuals there but I understand they could be inside the actual drain. I have also included the 77th Division Sergeant in charge of the Senior Lead Officers in this E Mail so that they are aware and can possibly have a Senior Lead Officer there as well.

I have included Matthew Tenenchavez from Los Angeles Housing Services Authority (LAHSA) to see if they may be available to conduct out reach to any unsheltered individuals that still remain in the area. Please let me know what you need from the LAPD side and we will do our best to accommodate.

Take Care,

Emada

Good morning,

The scheduled date is January 29th and 30th. Hazmat, Cal Trans and CHP will be present for this cleanup.

As far as Outreach, I have offered resource packets to the transients at this location but all refused. If Outreach would like to be present, they are more than welcome to speak to the transients once they are off State Property.

Respectfully,
S. Anderson

Hi Officer Scott,

Thank You so very much for the information and feedback. Are you able to loop in the Cal Trans representative to this information? Would any day work from January 8th through the 11th for everyone?

Senor Lead Officer Coats from 77th Division: The UHRC is attempting to address the below request from LAFD are you able to assist us at this location:

Briefly, we have a group of homeless people that are living inside a storm drain that is partially on city property with the remainder on Cal Trans/State property. The storm drain runs underground for roughly 300 feet. The fenced perimeter is in need of repair to secure the area from unlawful entry. The location is Olive St and Manchester Ave

We have responded to this location over the past year approximately twenty times for rubbish fires. Most recently, it has been noted that they are taking power illegally from a power pole at that location into the storm drain.

Major concerns: First: In the event of rain they will be in a location that could bring significant injury or death to people inside the storm drain. Second Due to the nature/location of the site rodent infestation is obvious; potentially leading to the spread of disease among the homeless as well as LAFD members. Third If they become ill or injured, due to the confined location we would have to upgrade to a confined space rescue, which by nature is a slow process due to procedural necessities that need to be in place as mandated by Cal OSHA before entry can be made to effect a rescue.

Due to the dynamics of the location we can be on scene from 30 minutes to as long as 2 hours to extinguish these fires. We have attempted to resolve the matter through The City of Los Angeles Public Works, who has mitigated the city part of the issue. However, our Cal Trans partners need to secure their property as it once was or there will be no end to this matter.

THANK YOU everyone for your attention to this location.

Good afternoon Sir,

We will be more than happy to assist with this project. CalTrans had an incident last week at this same location and are currently planning with us to mitigate this issue.

This CalTrans crew works Tuesday – Saturdays. Let me know a date, preferably when CalTrans is working, and will be there to assist.
